THE COMPANY

THREE DECADES OF BUILDING WITH INTEGRITY.

Bhava Engineering is a multidisciplinary construction firm with more than thirty years of experience delivering buildings and infrastructure for public-sector undertakings, government bodies and private clients across India.

Led by our founder, Er. M. N. Pareek, a civil engineer with over five decades in the field, the firm is run by professional, technically qualified managers across every discipline of construction.

From corporate towers and hospitals to housing townships, institutional complexes and secure defence infrastructure, we take single-point responsibility for civil, structural and building-services work, supported by long-standing associates of repute in electrical, public health engineering, HVAC, fire fighting and interiors.

We own the plant and equipment needed to execute projects of varied nature and scale, and are backed by the financial support of our bankers, associates and vendors.

The prime objective of our management is excellence through continuous improvement and client satisfaction. Our commitment to every client is simple: **on-time completion, without any compromise in quality.**
